ORDERED THE MACHINERY.

George Adams of Call, who is in the city to-day, says that he received a telegram to-day from the company of which he will buy the machinery for the new mill, saying that they will have the machinery ready in seventy-five days, which is considered quite rapid work in filling such an order. Mr. Adams estimates that it will take six months to rebuild the mill, which will be the same capacity of the old mill. The building will be 60x250 feet which is a little wider than the old building. Mr. Adams thinks that he can use the old boilers and says that he has one new boiler, which had been bought for the dry mill, that had never been fired up. Speaking of the origin of the fire, Mr. Adams said that he was satisfied that the mill had been set on fire.

SUIT AGAINST MARCONI.

New York, Oct. 18.—Lyman C. Larned of Boston has brought suit in the United States circuit court against Guglielmo Marconi to restrain him and his agents from using the system of wireless telegraphy, which Larned claims is an infringement of a patent now controlled by him. The plaintiff in his complaint alleges that the original inventor of this system of telegraphing was Amos Emerson Dolbear, and patented by him October 5, 1886, under assignment to the Dolbear electric telephone company. These rights were transferred to Larned on the 22d of July last. Larned alleged that the means described in the patent under which Marconi purposes to carry on his system cannot be carried on for such work and are not adapted for commercial use. Larned asks damages in the sum of \$100,000 and for an injunction restraining Marconi from using the alleged infringing system of telegraphy pending the termination of the suit.

PIO DEL PILAR'S OFFER.

Manila, Oct. 18.—General Otis has received messages purporting to come from the insurgent general, Pio Del Pilar, offering to sell out his army and to deliver Aguinaldo into the hands of the Americans. Although he is not satisfied that his offer is authentic, it is not intrinsically improbable. The policy of General Otis is firmly set against buying any surrenders.

Pio del Pilar offers for the sum of \$50,000 to refrain from attacking Manila with his army; for \$250,000 he offers to surrender his army after a sham battle, both sides firing into the air, and for the sum of \$500,000 he says he will procure the overthrow of the insurrection and the capture of Aguinaldo, Paterno and the other leaders. In the course of the communication he refers to Aguinaldo in contemptuous terms, indicating that strained relations exist between them. Reports are being received from the districts occupied by the enemy that the Filipinos believe that Pio del Pilar has an audacious plan to break through the American lines into Manila and seize General Otis and the archbishop. Possibly these rumors were started with an idea of helping to make a deal with the Americans. It is needless to say that the Americans would welcome an attack of that sort. There has been much speculation of late regarding the whereabouts of Pio del Pilar. The recent attack at La Loma is credited to him. It is believed that he is now in the vicinity of San Mateo valley with a force of from 1800 to 2000 men.

MCKINLEY TALKS.

Niles, O., Oct. 18.—In this town President McKinley first saw the light of day. Thousands of his boyhood friends gathered at the railroad station this afternoon to cheer him journey back to Washington after a tour which covered over 5000 miles through the west and northwest, and during which time the chief executive of the nation delivered almost a hundred speeches to thousands of enthusiastic citizens. Only one of the cabinet members remained in the party which appeared to bow acknowledgments to the warm reception which awaited them here. The president, when the cheering subsided said:

"I know, my fellow citizens, that you will be certain of the high appreciation of my native town here in such vast numbers waving the flag we love. We never loved that flag as we love it to-day. There never were so many people devoted to it, willing to sacrifice life for it, as there are in the United States to-day. And wherever that flag floats, raised by the soldiers of the United States it represents just what it represents here—the highest privileges, the broadest opportunity and the widest liberty."

BRITISH ARMY ESTIMATES.

London, Oct. 18.—A supplementary army estimate has been issued asking the house of commons to vote additional 25,000 men and £10,000,000 (£50,000,000) in consequence of the situation in South Africa. It is said that the 25,000 men represent the maximum excess beyond the estimates fixed for the year 1899-1900, and is in consequence of calling out the reserves for the temporary transfer of the troops from the Indian to the British establishments. With the additional £10,000,000 the total army estimates are £30,167,200.
